CROWDS OF PEOPLE GAZE UPON  
THE MORTAL REMAINS OF  
POPE LEO XIII.

## ITALIANS PRESERVE ORDER

TROOPS OF THE QUIRINAL ENTER  
PAPAL TERRITORY FOR THE  
FIRST TIME.

Rome, July 24.—From sunrise until sunset Thursday, thousands passed before the body of Leo XIII, lying in state in the basilica of St. Peter's. It was originally intended that this opportunity publicly to view the remains should extend through three days, but the Associated Press correspondent learns that the time is likely to be curtailed and that the funeral may occur Friday instead of Saturday night, owing to the evidences that decomposition is setting in. This is due to Thursday's severe heat, from which no embalming, however perfect, could completely protect the body.

The will of the dead pope was opened at Thursday's meeting of the congregation of cardinals. It consists of thirty-six pages, in the handwriting of Leo XIII, and leaves all the property of which he died possessed to his successor.

### For the Use of the Church.

To each member of his family he leaves a present to be chosen from the valuable objects in his apartments. Similar presents are bequeathed to his physicians. The total amount of the property which he left is not yet known.

The prevailing impression of those who passed before the iron gates of the chapel of the sacrament to view the remains was one of intense pity, combined with a certain sense of horror. The body was tilted up on the catafalque in order that all might see the terribly shrunken face. An ordinary skull in a frame of gold, lying in a mass of red robes, could scarcely have been more typical of death.

Except at sunrise, when the crush threatened a panic, all those who wished it had an opportunity of entering St. Peter's. During the day many of those who passed in stopped before the catafalque to say a hurried prayer. Hundreds of the women, and even some of the men, carried children in their arms.

### Italian Soldiers Preserve Order.

An important political factor was introduced into the ceremony by the entrance into St. Peter's of Italian soldiers, who remained there throughout the day to preserve order. Their presence there in such a capacity, unprecedented in the history of modern Italy, is important as an indication of better relations between the government and the vatican, as it was by the consent, if not the desire of the vatican authorities, that they employed the troops of the quirinal in papal territory.

Another feature which is causing comment along the same lines is the fact that Cardinal Oreglia, in receiving a group of the city fathers of Rome who represent the clerical party, charged them to thank also their liberal colleagues for the manifestations of sympathy which they showed during the illness of the pope. The cardinal, continuing his conversation, indicated special satisfaction over similar manifestations coming from several constituted bodies of the kingdom of Italy, such as communal councils and provincial deputations, including that of Rome, which is presided over by Prince Felice Bourghes.

### An Unexpected Tribute.

"It is an unexpected tribute," exclaimed the cardinal, "which no one would have imagined twenty-five years ago."

In this connection additional interest attaches to Thursday's meeting of the congregation of cardinals, which appointed Monsignor Pifferi as confessor of the conclave, a committee to undertake the arrangements of the conclave, and selected other officials, such as the physicians, who will attend them during their seclusion. The most important matter before the meeting, however, was a proposal presented by Cardinal Oreglia to send a note to the diplomatic body accredited to the holy see for the purpose of representing to the powers the condition of the papacy since the loss of its temporal power and the transfer of the capital of the Italian government to Rome. From what leaks out it appears that the proposal provoked considerable discussion and that Cardinals Steinhaber, Mathieu, and Vicesy Tuto favored the dispatch of a most energetic note concerning the question of

### Reclaiming the Papal Rights.

Cardinals Agliardi and Serafino Vanutelli, on the contrary, advocated a milder wording of this document, which, they contended, should maintain the historical pretensions of the holy see, but in temperate language. The majority of the congregation decided to pursue a middle course and entrusted Mr. Merry del Val with the duty of drawing up the document for submission to another meeting of the congregation. The note, when approved, will be presented to the diplomatic body signed by Cardinals Oreglia, Macchi and Netto, deans of the three orders into which the sacred college is divided.

After the will of Leo XIII had been opened, it was the intention of the cardinals to maintain the strictest

silence concerning its contents, but it is learned that it comprises thirty-six sheets in the handwriting of the late pope, except some additions evidently made in his later years, when the pope found considerable difficulty in writing, owing to the trembling of his hand, which was so pronounced before his death that he was obliged to hold his right hand with his left when he made his signature.

### Made a Recommendation.

The earlier portions of the testament include the recommendation which the testator addressed to his executors, Cardinals Rampolla, Mocenni and Cretoni, on the best way to continue the religious impulse given to the church as well as the policy followed by the holy see during later years. The document then enumerates all the property which Leo possessed and provides that it shall all go to his successor for the benefit of the church, including even the presents which might perhaps be considered personal rather than gifts to the pontiff, as such. The money which the pope left is in a closed safe in his bedroom, the keys having been given to different persons mentioned in the will.

All the land purchased and buildings erected for institutions personally founded by Leo are put in the name of the holy see to avoid possible claims from relatives, as the pope probably remembered that some time after the death of Pius IX, the latter's nephews instituted a suit against the church claiming fifteen thousand francs as their portion of his estate. The will ends by providing that his remains shall be buried in the basilica of St. John of Lateran in the tomb which he had already chosen.

### AGAINST RAMPOLLA.

Cardinal Gibbons Said to Have United French Cardinals.

Paris, July 24.—The Rome correspondent of the Paris edition of the Herald telegraphs that if Cardinal Rampolla is not elected it will be due to the action of Cardinal Gibbons, who, it is asserted in vatican circles, remained in Paris in order to unite the French cardinals against him. Cardinal Mathieu is still the most ardent supporter of Cardinal Rampolla. The correspondent further asserts that Cardinal Gibbons has succeeded in uniting three French cardinals around Cardinal Richard with a view of supporting a candidate whose policy will be a reaction against that of the late pontiff. He also says that the alliance will endeavor at the conclave to enforce a condition that the new pope transform the sacred college into a true international institution.

### ABANDONS ITS STRIKE.

Teamsters' Union Gives Up Fight Against the Kellogg Company.

Chicago, July 24.—Rebuffed for violating its agreements by the very unions it had been trying to aid and under strong public criticism for alleged lawless methods, the teamsters' union last night abandoned its sympathetic strike against the Kellogg Switchboard and Supply company.

Complete and unconditional surrender of the teamsters underlies this action, which appears to avert all possibility of the general labor war in Chicago, which Albert Young, president of the teamsters' national union, declared he would precipitate before his union could be forced to give up the fight.

The other unions involved will now continue the strike alone and their first step, which was decided on last night, will be an attempt to bring the federation of labor into the struggle.

### AGREEMENTS SIGNED.

Six Thousand Chicago Hotel Employees Get Increased Wages.

Chicago, July 24.—Under the agreements signed last night by the Hotelkeepers' association and the waiters' union, 6,000 employees are given a 10 per cent advance in wages and improved working conditions.

The agreements run until Aug. 1, 1905, but are subject to a revision in the wage scale after sixty days' notice has been given by one of the contracting parties. They provide that there shall be freedom of employment and that all disputes shall be settled by conciliation and arbitration. A minimum work day of eleven hours is provided for all hotel workers who are steadily employed. The scale of increased wages is based on the wage received on Feb. 1, 1903, and becomes effective from the time the strike was declared off, a month ago.

### DENTISTS ELECT OFFICERS.

Dr. A. G. Fee Chosen President of Wisconsin Dental Association.

Duluth, July 24.—The twenty-third annual convention of the Wisconsin Dental association closed a three days' session at Superior Thursday after electing the following officers for the ensuing year: President, Dr. A. G. Fee, Superior; first vice president, Dr. F. G. Van Stratum, Hurley; second vice president, Dr. G. V. Miller, Manitowish; secretary, Dr. W. H. Mueller, Madison; treasurer, Dr. Adolph Grapner, Milwaukee; board of censors: Dr. Deming, Ashland; Dr. J. J. Wright, and Dr. R. L. Wenker, Milwaukee. Manitowish was chosen as the place for holding the next meeting.

### Removes Embargo on Cattle.

Washington, July 24.—Secretary Wilson has issued an order removing the prohibition against the exportation of cattle from the port of Boston on account of the existence of foot and mouth disease.

### Stocks on the Decline.

New York, July 24.—There was a further decline in the stock market Thursday, the industrials being the most affected, but the railway list, including a number of high grade issues, suffered in sympathy.

## AN ALARMING REVIEW

A TOKIO CORRESPONDENT TELLS  
OF THE SITUATION IN THE  
FAR EAST.

## STRUGGLE FOR SUPREMACY

JAPANESE ARE BECOMING CONVINCED THEY HAD BETTER  
FIGHT NOW.

London, July 24.—The Daily Mail's Tokyo correspondent sends a rather alarming review of the situation in the East to his paper. He says that Russia's retention of Manchuria, the increase of her fleet, the dispatch of her troops to Manchuria, the southward movement of occupying army in Manchuria and the defiant conduct on the Korean frontier alarmed the Japanese, many of whom are convinced that it would be better to fight now than risk the eventual loss of Korea and the relegation of Japan to a secondary place. He says the Japanese are accumulating stores and negotiating the purchase of ships; that a squadron is off Vladivostok, to which port Russian vessels have been sent as a precaution, and that both fleets are ready for action at any moment. He says that a perusal of the Siberian press reveals the aggressive spirit of the Russian military party; that the Russians believe they will lose prestige if they give way now with the result that their far Eastern empire will be lost and Japanese influence will become predominant. The appointment of Marquis Ito as president of the privy council, the correspondent says, is favorable to peace, but that Russia must retreat or there will be very grave danger of war. He says the Japanese believe that France and England will join in the expected conflict which diplomats at Tokyo think might, if once begun, continue for years, involving disastrous results to Japanese France and the creation of a sort of Balkan difficulty in Korea. He adds that confidence is shown in the Anglo-Japanese alliance.

### NEGRO KILLS HIS WIFE.

A Mob of His Own Color Makes a Desperate Effort to Lynch Him.

St. Louis, July 24.—A mob made a desperate but unsuccessful effort last night to lynch John Davis, a negro, who had just shot and killed his wife. The shooting attracted two policemen, who hurried into the house and arrested Davis.

The officers took their prisoner to a street corner patrol box and had sent in a call when a mob of nearly 100 negroes rushed on them.

"Lynch him," shouted a negro in the crowd, and the cry was taken up as the mob surrounded the officers and prisoner.

Davis crouched to the ground and begged the officers for protection. The officers drew their revolvers and began to use them as clubs, knocking several members of the mob senseless.

Additional officers arrived and the mob was put to rout and Davis was taken to jail in safety.

### SERIOUS RIOTING IN RUSSIA.

Strikers at Baku Said to Have Clashed With Troops.

London, July 24.—Reports are reaching London of serious rioting among the strikers at Baku, Russia, where it was reported that 40,000 men were on strike. The reports say that there has been much destruction of property and conflicts with troops. In one case the rioters are said to have fired into a train conveying troops. It is alleged that political agitators are busy and that the whole laboring population is in a state of insurrection, that railway lines have been torn up and ships detained.

An official dispatch from St. Petersburg says that minor disturbances have occurred but that the military has restored order.

### MOB STORY A FAKE.

No New Developments in the Case of the Negro Scott.

Granite Falls, Minn., July 24.—There are no new developments in the case of the negro Scott, who attacked Miss Olson. The reports as to the difficulty at Minnesota Falls station occurred only in the imagination of a correspondent. There was nothing to justify any such statements, except that the officers turned back at that place because it was understood a mob had left Montevideo for the purpose of lynching the prisoner. This report was probably a fake. One man met the train at Minnesota Falls and he knew nothing of the prisoner being there and could not, and probably would not have done anything if he had.

### FOR SHOOTING A POLICEMAN.

Texas Negro Is Filled With Lead by a Crowd of Citizens.

Beaumont, Tex., July 24.—Policeman Walter Skensbury Thursday was shot and fatally wounded by Mooney Allen, a negro, who was pursued by a crowd of citizens and shot to death shortly afterward. Allen started in to shoot his wife and he forced a negro policeman and others who interfered to retreat. Skensbury appeared and Allen covered him with a rifle. The officer advanced and Allen fired, the bullet striking Skensbury in the side and passing through the body.

### HOLDS TWO SESSIONS.

Grand Lodge of Elks Adjourns After Acting on Various Matters.

Baltimore, July 24.—What many of the members of the grand lodge of Benevolent and Protective Order of Elks say has been the largest and most successful grand lodge meeting in the history of the organization closed last evening. There were 1,064 grand lodge members in Baltimore and most of them attended every business session.

There were two sessions of the grand lodge, the first of which only routine matters were discussed. At the evening session it was decided to restore its charter to the Macon, Ga., lodge, the charter committee having reported favorably on the application after a thorough investigation of the charges against the lodge. The committee on ritual was not prepared to report all the changes proposed in the ritual, and the matter was carried over, the committee being instructed to report a complete ritual when it is agreed upon. A resolution was adopted discouraging the throwing of confetti during future grand lodge meetings.

Resolutions of thanks and commendation to the Baltimore lodge and the officials and people were adopted. The installation of officers followed. Grand Exalted Ruler Joseph T. Fanning of Indianapolis, then declared the grand lodge adjourned to meet in Cincinnati next year and to the strains of "Maryland, My Maryland," the grand lodge members dispersed, nearly all singing the anthem as they left the hall.

Last night was given up to jollification by the Elks, visitors and citizens.

### HORSES QUARANTINED.

Shippers Will Probably Be Prosecuted by Minnesota Officers.

La Crosse, Wis., July 24.—S. H. Ward of St. Paul, state veterinarian of Minnesota, has ordered quarantined a herd of 200 Montana horses being sold at La Crosse, just opposite La Crosse.

The horses were billed to Chicago that they might be smuggled into Minnesota without detection of the state department. Horses have been dying in the streets of La Crosse and are believed to have a contagious disease.

The shippers will probably be prosecuted by the state of Minnesota for violating the shipping laws.

### JILTED THE MOTHER.

James Ponard Is Arrested After Marrying the Daughter.

Bloomington, Ill., July 24.—James Ponard and "Mrs. Ponard" of Pontiac were arrested Thursday on complaint of Mrs. Mary Noyes, mother of the bride, who says Ponard eloped with her daughter. Ponard said that he had been betrothed to Mrs. Noyes, but later decided to marry the daughter. A marriage ceremony was performed Wednesday night at Pontiac but it is said that the marriage license contained the name of Mrs. Noyes and not that of her daughter.

The elopers were taken to Pontiac last night by the sheriff.

### TRAMPLED TO DEATH.

Wealthy Montana Stockman Killed by His Own Cattle.

Glasgow, Mont., July 24.—John Enos, one of the wealthiest and best known stockmen in Northern Montana, was knocked down, trampled under foot and drowned by his own cattle while attempting to drive a band of steers across a slough of the Missouri river near here.

While prodding an unruly team, the animal turned suddenly and Enos was thrown from his feet. The rest of the cattle, following their leader, trod the man deep into the mire and water.

### RUINED BY POLITICS.

Prominent South Dakota Man Commits Suicide.

Sioux City, Ia., July 24.—Ruined by politics, J. F. Robinson, who has been prominent in Iowa and South Dakota, committed suicide at Morningside by shooting himself through the heart with a revolver. Robinson was once recorder of Turner county, S. D., and had always mixed in politics. He contracted the drink habit and alleged it was brought about by the necessity of being a good fellow in his political work.

### FIFTY-FOUR ASSASSINATIONS.

Soldiers of Prince Ferdinand's Palace Guard Killed at Night.

Vienna, July 24.—The Stampa and other Belgrade papers publish rumors of a revolution in Bulgaria and that Prince Ferdinand, on the advice of his government, is about to flee, or has fled to Belgrade. Thus far the rumors have not been officially confirmed. It is said at Belgrade that there have been fifty-four night assassinations mostly of soldiers on duty in Prince Ferdinand's palace guard.

### TWO CARS BLOWN UP.

One Motorman Injured and Another One Fired Upon.

Richmond, Va., July 24.—During an outbreak of street car strikers two cars were blown up last night, one motorman was injured so that he had to be relieved from duty. Another motorman was shot at and a window of his car was broken.

A woman passenger was struck by a stone thrown at a Clay street car. The disorder has the appearance of preconcerted efforts to prevent people from riding on the cars.

### Investigating Affairs of Rand.

Washington, July 24.—Postoffice inspectors are now investigating the affairs of H. H. Rand, former confidential clerk of the postmaster general. Mr. Rand has not been at the department for some days.

## TO DISCUSS CURRENCY

PRESIDENT ROOSEVELT WILL  
CALL IN COUNCIL VARIOUS  
INTERESTS.

## IMPORTANCE OF A REFORM

FINANCIERS AGREE UPON THAT  
POINT BUT DIFFER AS TO  
THE METHOD.

St. Paul, July 24.—A special to the Globe from New York says:

As a result of the conference between President Roosevelt and "Uncle Joe" Cannon at Oyster Bay regarding financial legislation, it is announced from an authoritative source that a series of conferences upon the currency question would be held during the coming three months. The president will call in council representatives of all interests in all parts of the country, financial, industrial and commercial, that are most concerned in making the medium of exchange automatically responsive to business demands.

It has become an open secret that the president has learned already that while there is general agreement upon the importance of currency reform there is serious disagreement as to its method. Men of equal or similar rank as authorities have presented to him widely different plans. In his message to congress the president will make general, rather than specific, recommendations. He is anxious that all of the experts should arrive at some common ground between now and November.

There will be called together in September a representative body to consider currency reform similar to that organized by Mr. Hanna, of Indiana, seven years ago, to discuss the establishment of the gold standard. These conferences will start with the proposition that the secretary of the treasury should be permitted to deposit customs receipts directly in designated national banks and that the security for these deposits should not be limited to government bonds, but that securities of the class that savings banks are allowed to accept should be recognized. To this there will be opposition.

### DISCUSS PURE WHISKY.

Kentuckians Plead for Reform in Government Laws.

St. Paul, July 24.—Pure whisky was the topic of discussion at the dairy and food commissioners' convention here, and the speakers agreed on two reforms that should be inaugurated at once for the benefit of whisky consumers. All whisky should be required kept in bond under government surveillance until properly aged, and should be bottled in bond, so that when it reaches the consumer it would have the government's guarantee of purity.

E. H. Taylor Jr. of Frankfort, Ky., severely arraigned the existing government laws with regard to distilleries as unfair and putting a premium on dishonesty. While the legitimate distiller is holding his whisky in bond and keeping it until it matures and becomes pure and ready for commerce, the bogus manufacturer is flooding the market with adulterated and unaged whisky.

"Whisky that can be made ten years old in twenty minutes is a fraud," declared Mr. Stoll of Kentucky.

### GUEST OF HIS UNCLE.

President Roosevelt Visiting at Lotos Lake, N. Y.

Sayville, N. Y., July 24.—President Roosevelt is the guest of his uncle, Robert B. Roosevelt, at the latter's country estate, Lotos Lake. He passed a quiet and restful day, after his hard ride during the early hours of the morning. After two or three hours of sleep taken immediately after his arrival, the president accompanied his uncle and cousin, Robert B. Roosevelt, Jr., on an automobile ride. The president was the guest at luncheon of Mrs. John E. Roosevelt at her country home, Meadowcroft. He passed the night at Lotos Lake.

### TORNADO IN ARIZONA.

Thought That Many People in the Path of the Storm Perished.

Tucson, Ariz., July 24.—A tornado visited Tombstone and Fairbanks Wednesday night and although reports are meagre it is thought that many who were caught in the path of the storm perished. Wires are all down and the first reports of the storm reached Tucson last night. The storm was accompanied by a cloudburst. The wind did great damage, unroofing houses and tearing up large trees. Hardly had it subsided when water came down the canon and Fairbanks was under six feet of water. The inhabitants fled to the hillside. In the valley below and above Fairbanks several ranch houses are known to be demolished.

### TRIPLE TRAGEDY IN OHIO.

Two Dead and One Wounded as a Result of Jealousy.

Bucyrus, O., July 24.—Charles Kent, a bartender, last night shot and killed Mrs. Lou Renzell and wounded John Sawyer and then killed himself because he was jealous of Sawyer. Kent recently eloped with Mrs. Renzell, who owned a saloon.

## VICTORY FOR OLD SHAMROCK.

New Cup Challenger Loses a Race by a Fluke and Shift of Wind.

Atlantic Highlands, N. J., July 24.—A fluke and a shift of wind cheated Shamrock III out of a victory in a drifting race with Shamrock I off Sandy Hook Thursday and gave the old boat the first victory she ever had over the new cup challenger. The boats had drifted about nine miles of the run to the turning mark with just enough wind to keep them moving, when Shamrock I's sails filled with wind and for twenty minutes she slipped away, leaving her sister racer almost becalmed. Beating back to the finish line a shift of wind gave the old boat an advantage. Shamrock I gained five minutes by her good luck. She finished 1 minute and 52 seconds ahead and beat the challenger by 2 minutes, 50 seconds elapsed time.

### COLUMBIA BADLY BEATEN.

Reliance Gives the Older Boat Her Worst Defeat.

Newport, R. I., July 24.—In a race for a special cup Thursday, the Reliance gave the Columbia the worst beating she has ever sustained in a contest sailed in a good whole sail breeze. Sailing over a course thirty-eight miles in length, nearly twenty of which were dead to windward, the new cup yacht finished 18 minutes, 49 seconds ahead of the old champion.

The Constitution went up to Bristol to have a new topmast put on, and did not arrive until too late to go out to the starting line.

### CURE FOR LOCKJAW.

Minneapolis Physician Makes an Important Discovery.

Minneapolis, July 24.—To a Minneapolis physician belongs the honor of having discovered the cure for the terrible disease—lockjaw.

Citran villosa IX is the substance that cured William Bunnell, and it can be procured at any homeopathic pharmacy. It was administered in a dissolution of twenty drops to a half glass of water and given in teaspoonful dose every half hour.

The poultice applied to the foot was an Excelsior antiseptic dressing, a clay substance, that is used by many physicians.

The doctor declares that it was one of the most pronounced and obstinate cases of lockjaw he has ever encountered, the spasms occurring with most alarming frequency.

### CARDINAL GOTTI'S CHANCES

Why Archbishop Quigley Thinks He Will Be the New Pope.

Archbishop Quigley of Chicago believes the next pope will be Cardinal Gotti, according to a special dispatch to the New York Herald.

The archbishop believes that Cardinal Rampolla is persona non grata to the sacred college because of his pro-French services during the expulsion of the religious orders from France.

"There is no doubt," said the archbishop, "that France would be mightily pleased to see Rampolla elevated to the papacy, but for that very reason it is not likely that he will secure the election."

"Cardinal Rampolla as secretary of state has, of course, had to deal with many delicate state problems affecting national policies of the great powers of the continent, such as Spain, France, Germany and Italy. In that capacity he has probably incurred the displeasure in some degree of one or two of the powers."

"For the reason that France would be most pleased at the elevation of Rampolla Germany and Austria would be opposed to him. The emperor of Germany is one of the shrewdest diplomats of the continent, and it is not doubted that he would like to secure the friendship of the Vatican to the extent, in fact, of securing permission to Catholic missionaries in the Ottoman empire and other eastern countries."

"It would be of great assistance to the German government to have the support of Rome in the protection of the Catholic missionaries in the east. In that event Germany could send soldiers with her missionaries to protect them and would secure diplomatic and valuable footholds."

"Cardinal Gotti, one of the prominent and most likely candidates for the papacy, would be very acceptable to Germany. He is a wonderfully equipped man for the place too. Gotti has won his way to the eminent position he occupies by merited services. He is a profound scholar, knows the world well and is large in his sympathies and of a very kindly nature. He would undoubtedly evince a fine knowledge of statecraft if elevated to the papacy and would be especially pleasing to Germany and Austria."

"Cardinal Gotti, however, might not prove acceptable at first to the government at Washington. He is a very religious man and would naturally lean to the side of the friars in the Philippines."

### TO RELIEVE GENERAL DAVIS.

Major General Wade Will Command the Army in the Philippines.

Washington, July 23.—Acting Adjutant General Hall has been notified that Major General James F. Wade will relieve Major General George W. Davis of the command of the division of Philippines Saturday morning, on which day General Davis will be placed on the retired list.

They provide that there shall be freedom of employment and that all disputes shall be settled by conciliation and arbitration. A minimum work day of eleven hours is provided for all hotel workers who are steadily employed. The scale of increased wages is based on the wage received on Feb. 1, 1903, and becomes effective from the time the strike was declared off, a month ago.

## DENTISTS ELECT OFFICERS.

Dr. A. G. Fee Chosen President of Wisconsin Dental Association.

Duluth, July 24.—The twenty-third annual convention of the Wisconsin Dental association closed a three days' session at Superior Thursday after electing the following officers for the ensuing year: President, Dr. A. G. Fee, Superior; first vice president, Dr. F. G. Van Stratum, Hurley; second vice president, Dr. G. V. Miller, Manitowish; secretary, Dr. W. H. Mueller, Madison; treasurer, Dr. Adolph Grapner, Milwaukee; board of censors: Dr. Deming, Ashland; Dr. J. J. Wright, and Dr. R. L. Wenker, Milwaukee.

Manitowish was chosen as the place for holding the next meeting.

## Removes Embargo on Cattle.

Washington, July 24.—Secretary Wilson has issued an order removing the prohibition against the exportation of cattle from the port of Boston on account of the existence of foot and mouth disease.

## Stocks on the Decline.

New York, July 24.—There was a further decline in the stock market Thursday, the industrials being the most affected, but the railway list, including a number of high grade issues, suffered in sympathy.

## AN ALARMING REVIEW

A TOKIO CORRESPONDENT TELLS OF THE SITUATION IN THE FAR EAST.

## STRUGGLE FOR SUPREMACY

JAPANESE ARE BECOMING CONVINCED THEY HAD BETTER FIGHT NOW.

London, July 24.—The Daily Mail's Tokyo correspondent sends a rather alarming review of the situation in the East to his paper. He says that Russia's retention of Manchuria, the increase of her fleet, the dispatch of her troops to Manchuria, the southward movement of occupying army in Manchuria and the defiant conduct on the Korean frontier alarmed the Japanese, many of whom are convinced that it would be better to fight now than risk the eventual loss of Korea and the relegation of Japan to a secondary place.

He says the Japanese are accumulating stores and negotiating the purchase of ships; that a squadron is off Vladivostok, to which port Russian vessels have been sent as a precaution, and that both fleets are ready for action at any moment. He says that a perusal of the Siberian press reveals the aggressive spirit of the Russian military party; that the Russians believe they will lose prestige if they give way now with the result that their far Eastern empire will be lost and Japanese influence will become predominant. The appointment of Marquis Ito as president of the privy council, the correspondent says, is favorable to peace, but that Russia must retreat or there will be very grave danger of war. He says the Japanese believe that France and England will join in the expected conflict which diplomatists at Tokyo think might, if once begun, continue for years, involving disastrous results to Japanese finance and the creation of a sort of Balkan difficulty in Korea. He adds that confidence is shown in the Anglo-Japanese alliance.

## NEGRO KILLS HIS WIFE.

A Mob of His Own Color Makes a Desperate Effort to Lynch Him.

St. Louis, July 24.—A mob made a desperate but unsuccessful effort last night to lynch John Davis, a negro, who had just shot and killed his wife. The shooting attracted two policemen, who hurried into the house and arrested Davis.

The officers took their prisoner to a street corner patrol box and had sent in a call when a mob of nearly 100 negroes rushed on them.

"Lynch him," shouted a negro in the crowd, and the cry was taken up as the mob surrounded the officers and prisoner.

Davis crouched to the ground and begged the officers for protection. The officers drew their revolvers and began to use them as clubs, knocking several members of the mob senseless. Additional officers arrived and the mob was put to rout and Davis was taken to jail in safety.

## TRAMPLED TO DEATH.

Wealthy Montana Stockman Killed by His Own Cattle.

Glasgow, Mont., July 24.—John Enos, one of the wealthiest and best known stockmen in Northern Montana, was knocked down, trampled under foot and drowned by his own cattle while attempting to drive a band of steers across a slough of the Missouri river near here.

While prodding an unruly beast, the animal turned suddenly and Enos was thrown from his feet. The rest of the cattle, following their leader, trod the man deep into the mire and water.

## RUINED BY POLITICS.

Prominent South Dakota Man Commits Suicide.

Sioux City, Ia., July 24.—Ruined by politics, J. F. Robinson, who has been prominent in Iowa and South Dakota, committed suicide at Morningside by shooting himself through the heart with a revolver. Robinson was once recorder of Turner county, S. D., and had always mixed in politics. He contracted the drink habit and alleged it was brought about by the necessity of being a good fellow in his political work.

## FIFTY-FOUR ASSASSINATIONS.

Soldiers of Prince Ferdinand's Palace Guard Killed at Night.

Vienna, July 24.—The Stampa and other Belgrade papers publish rumors of a revolution in Bulgaria and that Prince Ferdinand, on the advice of his government, is about to flee, or has fled to Belgrade. Thus far the rumors have not been officially confirmed. It is said at Belgrade that there have been fifty-four night assassinations mostly of soldiers on duty in Prince Ferdinand's palace guard.

## TWO CARS BLOWN UP.

One Motorman Injured and Another One Fired Upon.

Richmond, Va., July 24.—During an outbreak of street car strikers two cars were blown up last night, one motorman was injured so that he had to be relieved from duty. Another motorman was shot at and a window of his car was broken.

A woman passenger was struck by a stone thrown at a Clay street car. The disorder has the appearance of preconcerted efforts to prevent people from riding on the cars.

## Investigating Affairs of Rand.

Washington, July 24.—Postoffice inspectors are now investigating the affairs of H. H. Rand, former confidential clerk of the postmaster general. Mr. Rand has not been at the department for some days.

## FOR SHOOTING A POLICEMAN.

Texas Negro Is Filled With Lead by a Crowd of Citizens.

Beaumont, Tex., July 24.—Policeman Walter Skensbury Thursday was shot and fatally wounded by Mooney Allen, a negro, who was pursued by a crowd of citizens and shot to death shortly afterward. Allen started in to shoot his wife and he forced a negro policeman and others who interfered to retreat. Skensbury appeared and Allen covered him with a rifle. The officer advanced and Allen fired, the bullet striking Skensbury in the side and passing through the body.

## HOLDS TWO SESSIONS.

Grand Lodge of Elks Adjourns After Acting on Various Matters.

Baltimore, July 24.—What many of the members of the grand lodge of Benevolent and Protective Order of Elks say has been the largest and most successful grand lodge meeting in the history of the organization closed last evening. There were 1,064 grand lodge members in Baltimore and most of them attended every business session.

There were two sessions of the grand lodge, the first of which only routine matters were discussed. At the evening session it was decided to restore its charter to the Macon, Ga., lodge, the charter committee having reported favorably on the application after a thorough investigation of the charges against the lodge. The committee on ritual was not prepared to report all the changes proposed in the ritual, and the matter was carried over, the committee being instructed to report a complete ritual when it is agreed upon.

A resolution was adopted discouraging the throwing of confetti during future grand lodge meetings.

Resolutions of thanks and commendation to the Baltimore lodge and the officials and people were adopted. The installation of officers followed. Grand Exalted Ruler Joseph T. Fanning of Indianapolis then declared the grand lodge adjourned to meet in Cincinnati next year and to the strains of "Maryland, My Maryland," the grand lodge members dispersed, nearly all singing the anthem as they left the hall.

Last night was given up to jollification by the Elks, visitors and citizens.

## HORSES QUARANTINED.

Shippers Will Probably Be Prosecuted by Minnesota Officers.

La Crosse, Wis., July 24.—S. H. Ward of St. Paul, state veterinarian of Minnesota, has ordered quarantined a herd of 200 Montana horses being sold at La Crosse, just opposite La Crosse.

The horses were billed to Chicago that they might be smuggled into Minnesota without detection of the state department. Horses have been dying in the streets of La Crosse and are believed to have a contagious disease.

The shippers will probably be prosecuted by the state of Minnesota for violating the shipping laws.

## JILTED THE MOTHER.

James Ponard Is Arrested After Marrying the Daughter.

Bloomington, Ill., July 24.—James Ponard and "Mrs. Ponard" of Pontiac were arrested Thursday on complaint of Mrs. Mary Noyes, mother of the bride, who says Ponard eloped with her daughter. Ponard said that he had been betrothed to Mrs. Noyes, but later decided to marry the daughter. A marriage ceremony was performed Wednesday night at Pontiac but it is said that the marriage license contained the name of Mrs. Noyes and not that of her daughter.

The elopers were taken to Pontiac last night by the sheriff.

## TO DISCUSS CURRENCY

PRESIDENT ROOSEVELT WILL CALL IN COUNCIL VARIOUS INTERESTS.

## IMPORTANCE OF A REFORM

FINANCIERS AGREE UPON THAT POINT BUT DIFFER AS TO THE METHOD.

St. Paul, July 24.—A special to the Globe from New York says:

As a result of the conference between President Roosevelt and "Uncle Joe" Cannon at Oyster Bay regarding financial legislation, it is announced from an authoritative source that a series of conferences upon the currency question will be held during the coming three months. The president will call in council representatives of all interests in all parts of the country, financial, industrial and commercial, that are most concerned in making the medium of exchange automatically responsive to business demands.

It has become an open secret that the president has learned already that while there is general agreement upon the importance of currency reform there is serious disagreement as to its method. Men of equal or similar rank as authorities have presented to him widely different plans. In his message to congress the president will make general, rather than specific, recommendations. He is anxious that all of the experts should arrive at some common ground between now and November.

There will be called together in September a representative body to consider currency reform similar to that organized by Mr. Hanna, of Indiana, seven years ago, to discuss the establishment of the gold standard. These conferences will start with the proposition that the secretary of the treasury should be permitted to deposit customs receipts directly in designated national banks and that the security for these deposits should not be limited to government bonds, but that securities of the class that savings banks are allowed to accept should be recognized. To this there will be opposition.

## DISCUSS PURE WHISKY.

Kentuckians Plead for Reform in Government Laws.

St. Paul, July 24.—Pure whisky was the topic of discussion at the dairy and food commissioners' convention here, and the speakers agreed on two reforms that should be inaugurated at once for the benefit of whisky consumers. All whisky should be required kept in bond under government surveillance until properly aged, and should be bottled in bond, so that when it reaches the consumer it would have the government's guarantee of purity.

E. H. Taylor Jr. of Frankfort, Ky., severely arraigned the existing government laws with regard to distilleries as unfair and putting a premium on dishonesty. While the legitimate distiller is holding his whisky in bond and keeping it until it matures and becomes pure and ready for commerce, the bogus manufacturer is flooding the market with adulterated and unaged whisky.

"Whisky that can be made ten years old in twenty minutes is a fraud," declared Mr. Stoll of Kentucky.

## GUEST OF HIS UNCLE.

President Roosevelt Visiting at Lotos Lake, N. Y.

Sayville, N. Y., July 24.—President Roosevelt is the guest of his uncle, Robert B. Roosevelt, at the latter's country estate, Lotos Lake. He passed a quiet and restful day, after his hard ride during the early hours of the morning. After two or three hours of sleep taken immediately after his arrival, the president accompanied his uncle and cousin, Robert B. Roosevelt, Jr., on an automobile ride. The president was the guest at luncheon of Mrs. John E. Roosevelt at her country home, Meadowcroft. He passed the night at Lotos Lake.

## TORNADO IN ARIZONA.

Thought That Many People in the Path of the Storm Perished.

Tucson, Ariz., July 24.—A tornado visited Tombstone and Fairbanks Wednesday night and although reports are meagre it is thought that many who were caught in the path of the storm perished. Wires are all down and the first reports of the storm reached Tucson last night. The storm was accompanied by a cloudburst. The wind did great damage, unroofing houses and tearing up large trees. Hardly had it subsided when water came down the canon and Fairbanks was under six feet of water. The inhabitants fled to the hillside. In the valley below and above Fairbanks several ranch houses are known to be demolished.

## TRIPLE TRAGEDY IN OHIO.

Two Dead and One Wounded as a Result of Jealousy.

Bucyrus, O., July 24.—Charles Kent, a bartender, last night shot and killed Mrs. Lou Renzell and wounded John Sawyer and then killed himself because he was jealous of Sawyer. Kent recently eloped with Mrs. Renzell, who owned a saloon.

## VICTORY FOR OLD SHAMROCK.

New Cup Challenger Loses a Race by a Fluke and Shift of Wind.

Atlantic Highlands, N. J., July 24.—A fluke and a shift of wind cheated Shamrock III out of a victory in a drifting race with Shamrock I off Sandy Hook Thursday and gave the old boat the first victory she ever had over the new cup challenger. The boats had drifted about nine miles of the run to the turning mark with just enough wind to keep them moving, when Shamrock I's sails filled with wind and for twenty minutes she slipped away, leaving her sister racer almost becalmed. Beating back to the finish line a shift of wind gave the old boat an advantage. Shamrock I gained five minutes by her good luck. She finished 1 minute and 52 seconds ahead and beat the challenger by 3 minutes, 50 seconds elapsed time.

## COLUMBIA BADLY BEATEN.

Reliance Gives the Older Boat Her Worst Defeat.

Newport, R. I., July 24.—In a race for a special cup Thursday, the Reliance gave the Columbia the worst beating she has ever sustained in a contest sailed in a good whole-sail breeze. Sailing over a course thirty-eight miles in length, nearly twenty of which were dead to windward, the new cup yacht finished 18 minutes, 49 seconds ahead of the old champion.

The Constitution went up to Bristol to have a new topmast put on, and did not arrive until too late to go out to the starting line.

## CURE FOR LOCKJAW.

Minneapolis Physician Makes an Important Discovery.

Minneapolis, July 24.—To a Minneapolis physician belongs the honor of having discovered the cure for the terrible disease—lockjaw.

Cicuta virosa IX, is the substance that cured William Bunnell, and it can be procured at any homeopathic pharmacy. It was administered in a dissolution of twenty drops to a half glass of water and given in teaspoonful doses every half hour.

The poultice applied to the foot was an Excelsior antiseptic dressing, a clay substance, that is used by many physicians.

The doctor declares that it was one of the most pronounced and obstinate cases of lockjaw he has ever encountered, the spasms occurring with most alarming frequency.

## CARDINAL GOTTI'S CHANCES

Why Archbishop Quigley Thinks He Will Be the New Pope.

Archbishop Quigley of Chicago believes the next pope will be Cardinal Gotti, according to a special dispatch to the New York Herald.

The archbishop believes that Cardinal Rampolla is persona non grata to the sacred college because of his pro-French services during the expulsion of the religious orders from France.

"There is no doubt," said the archbishop, "that France would be mightily pleased to see Rampolla elevated to the papacy, but for that very reason it is not likely that he will secure the election."

"Cardinal Rampolla as secretary of state has, of course, had to deal with many delicate state problems affecting national policies of the great powers of the continent, such as Spain, France, Germany and Italy. In that capacity he has probably incurred the displeasure in some degree of one or two of the powers."

"For the reason that France would be most pleased at the elevation of Rampolla Germany and Austria would be opposed to him. The emperor of Germany is one of the shrewdest diplomats of the continent, and it is not doubted that he would like to secure the friendship of the Vatican to the extent, in fact, of securing permission to Catholic missionaries in the Ottoman empire and other eastern countries."

"It would be of great assistance to the German government to have the support of Rome in the protection of the Catholic missionaries in the east. In that event Germany could send soldiers with her missionaries to protect them and would secure diplomatic and valuable footholds."

"Cardinal Gotti, one of the prominent and most likely candidates for the papacy, would be very acceptable to Germany. He is a wonderfully equipped man for the place too. Gotti has won his way to the eminent position he occupies by merited services. He is a profound scholar, knows the world well and is large in his sympathies and of a very kindly nature. He would undoubtedly evince a fine knowledge of statecraft if elevated to the papacy and would be especially pleasing to Germany and Austria."

"Cardinal Gotti, however, might not prove acceptable at first to the government at Washington. He is a very religious man and would naturally lean to the side of the friars in the Philippines."

## TO RELIEVE GENERAL DAVIS.

Major General Wade Will Command the Army in the Philippines.

Washington, July 23.—Acting Adjutant General Hall has been notified that Major General James F. Wade will relieve Major General George W. Davis of the command of the division of Philippines Saturday morning, on which day General Davis will be placed on the retired list.

The Fergus Journal says, "Parkers Prairie is expecting the Soo train by Sept. 15." It must be way late.

J. J. Hill says the west will not be affected by the Wall street panic and James is in a position to know.

Has Brainerd overlooked the queen business in the present carnival? That seems to be the only feature omitted.

It is hardly necessary but in all probability a national republican convention will be called to nominate Theodore Roosevelt for president.

The meeting of the coal men in St. Paul is designated as a warm number. The coal barons will have the bulge on the ice magnates now in a short time.

As Iowa man shot his son the other day because he did not get up to breakfast when called. The measure adopted seems somewhat strenuous from this distance.

The Crookston Journal raises the question "ought there not to be a law forbidding the carrying of fire arms into the woods during the closed season on big game." It will take considerable evidence to convince the average man that there ought.

A request was received at the general land office Thursday from Representative Buckman, asking that the time limit on cutting pine on Minnesota Indian reservations be extended to three years. In making his request Mr. Buckman argued that the present time limit for the removal of pine purchased under the provisions of the Morris act, July 1, 1905, was altogether too short. The Cass Lake land office matter will also receive the congressman's attention while he is in Washington.

JULY 23, 29 and 30 are the days Prof. Bruns, the optician will be at the Arlington hotel. Examination is free.

If So Ponder This!—High Grade Pianos at a Great Reduction.

If porterhouse steak costs you 16 to 18 cents per pound and some fellow tells you he will sell it to you for 10 or 12 cents, will you continue to pay 16 or 18 cents? Certainly not. Then why pay from \$100 to \$150 more for a piano at other stores than we charge for the same grade? Our line of pianos include four different standard, high grade makes. We own the factories, we manufacture for cash and we sell direct to the customer, saving the enormous middleman's profit that they buy fine horses and houses with. Look to your own interests. We have done our part in telling you about it. Store open evenings.

ANOTHER CHANGE

Has been Made in the Northern Pacific Yards, S. Carr, of Duluth, Becoming Yard Master.

There seems to be a pretty hard gap to fill in the Northern Pacific yards in this city, for almost before Yardmaster Alberts started in on the job he resigned and was relieved this morning by S. Carr, of Duluth, who is a railroad man of considerable experience. The gentleman was formerly a conductor for the Northern Pacific and ran out of Duluth on one of the short lines.

Thos. Pillon, who has been a switchman in the yards for a long time, has been promoted to the position of night yard master, a new office. This change took place this morning.

It seems that since the new arrangement of the tracks it is no small task for a yard master until things get to running smoothly. Anyway there is all that he can comfortably take care of at the noon hour, when all the trains arrive and depart within the same hour.

Several Get Aboard too Much Red Eye and Proceed to Have a Rather Good Time and are Pulled.

There was something doing this morning in the municipal court. Ernest Golden was the first name to be called. He is a gentleman of color and is the man who has been doing the stunt as the African ball dodger on Sixth street with the carnival company. Last night he is said to have gotten on a drunk and was juggled. This morning he plead not guilty and his case was set for three o'clock this afternoon. Jeff Bryan was another one who had been having a carnivalfest and was charged with drunkenness. He plead not guilty and his hearing will come up tomorrow morning at 10 o'clock.

Jerry Larson was in court this morning charged with petty larceny. He stole some tools from a man by the name of H. Nelson. He plead not guilty and his hearing was set for this afternoon at 2 o'clock.

FRIDAY, JULY 24, 1903.

Weather

Partly cloudy tonight and Saturday.  
Rain.

THE boy who is only half back in his foot ball team at college is often way back in his studies.

THE Fergus Journal says, "Parkers Prairie is expecting the Soo train by Sept. 15." It must be way late.

J. J. HILL says the west will not be affected by the Wall street panic and James is in a position to know.

Has Brainerd overlooked the queen business in the present carnival? That seems to be the only feature omitted.

It is hardly necessary but in all probability a national republican convention will be called to nominate Theodore Roosevelt for president.

THE meeting of the coal men in St. Paul is designated as a warm number. The coal barons will have the bulge on the ice magnates now in a short time.

As Iowa man shot his son the other day because he did not get up to breakfast when called. The measure adopted seems somewhat strenuous from this distance.

THE Crookston Journal raises the question "ought there not to be a law forbidding the carrying of fire arms into the woods during the closed season on big game." It will take considerable evidence to convince the average man that there ought.

A REQUEST was received at the general land office Thursday from Representative Buckman, asking that the time limit on cutting pine on Minnesota Indian reservations be extended to three years. In making his request Mr. Buckman argued that the present time limit for the removal of pine purchased under the provisions of the Morris act, July 1, 1905, was altogether too short. The Cass Lake land office matter will also receive the congressman's attention while he is in Washington.

**JULY** 23, 29 and 30 are the days Prof. Bruns, the optician will be at the Arlington hotel. Examination is free.

ARE YOU WISE?

If So Ponder This!—High Grade Pianos at a Great Reduction.

If porterhouse steak costs you 16 to 18 cents per pound and some fellow tells you he will sell it to you for 10 or 12 cents, will you continue to pay 16 or 18 cents? Certainly not. Then why pay from \$100 to \$150 more for a piano at other stores than we charge for the same grade? Our line of pianos include four different standard, high grade makes. We own the factories, we manufacture for cash and we sell direct to the customer, saving the enormous middleman's profit that they buy fine horses and houses with. Look to your own interests. We have done our part in telling you about it. Store open evenings.

ANOTHER CHANGE

Has been Made in the Northern Pacific Yards, S. Carr, of Duluth, Becoming Yard Master.

There seems to be a pretty hard gap to fill in the Northern Pacific yards in this city, for almost before Yardmaster Alberts started in on the job he resigned and was relieved this morning by S. Carr, of Duluth, who is a railroad man of considerable experience. The gentleman was formerly a conductor for the Northern Pacific and ran out of Duluth on one of the short lines.

Thos. Pillon, who has been a switchman in the yards for a long time, has been promoted to the position of night yard master, a new office. This change took place this morning.

It seems that since the new arrangement of the tracks it is no small task for a yard master until things get to running smoothly. Anyway there is all that he can comfortably take care of at the noon hour, when all the trains arrive and depart within the same hour.

Awnings! Awnings!! At D. M. Clark & Co. 30-tf

THE POLICE ROUNDUP.

Several Get Aboard too Much Red Eye and Proceed to Have a Rather Good Time and are Pulled.

There was something doing this morning in the municipal court. Ernest Golden was the first name to be called. He is a gentleman of color and is the man who has been doing the stunt as the African ball dodger on Sixth street with the carnival company. Last night he is said to have gotten on a drunk and was juggled. This morning he plead not guilty and his case was set for three o'clock this afternoon. Jeff Bryan was another one who had been having a carnivalfest and was charged with drunkenness. He plead not guilty and his hearing will come up tomorrow morning at 10 o'clock.

Jerry Larson was in court this morning charged with petty larceny. He stole some tools from a man by the name of H. Nelson. He plead not guilty and his hearing was set for this afternoon at 2 o'clock.

ARE YOU SATISFIED?

f Not, What Better Proof Can Brainerd Residents Ask For?

This is the statement of a Brainerd citizen.

The testimony of a neighbor.

You can readily investigate it.

The proof should convince you.

Mr. W. S. Benjamin, practical gang and rotary filler, of 71 Third avenue, East Brainerd, says: "Doan's Kidney did me so much good that I prevailed on many others to use them, and I know many cases where benefit has resulted. I had more or less pain and the renal secretions were acid in nature, thereby causing me considerable distress. I got a supply of Doan's Kidney Pills from a drug store, and can state that they had the effect of completely altering the condition of my kidneys referred to above. I shall certainly continue to advise others to use this remedy if annoyed in any way from their kidneys."

Sold for 50 cents, at H. P. Dunn & Co., and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Proceedings of the board of county commissioners, meeting held June 13th, 1903.

Pursuant to adjournment, board met at 10 o'clock a. m., all members being present.

A communication from F. L. Fuller & Co., declining to purchase the \$15,000 court house refunding bonds, was read, whereupon the following resolution was unanimously adopted on a vote by ayes and nays, to wit:

RESOLUTION.

Whereas, on the 2nd day of July 1883, there was duly issued and negotiated the certain bonds of Crow Wing county, Minnesota, for the aggregate sum of \$15,000, known as the Court House bonds, numbered from one (1) to fifteen (15) both numbers inclusive, running twenty (20) years, bearing interest at the rate of eight per cent per annum, interest payable annually, and said bonds were therefore actually sold and delivered to purchasers for value, so that the same constitute a valid and existing indebtedness against said Crow Wing county, and whereas said bonds will mature and become payable to the holders thereof on the second day of July, 1903, in said sum of \$15,000 and whereas the board of county commissioners of said Crow Wing county have determined the necessity of refunding said bonds and of issuing and negotiating new bonds of said county for the amount of said indebtedness of \$15,000, and to pay the same pursuant to chapter 163, of the General Laws of Minnesota for 1901, and the said board of county commissioners of said county, at an adjourned meeting held this 13th day of June, 1903, all members being present, do now hereby declare and reaffirm the necessity of issuing and negotiating such new bonds for the purpose of refunding said bonds. Now, therefore be it

Resolved, That the county of Crow Wing, state of Minnesota, hereby makes application to the state for a loan of fifteen thousand (\$15,000) dollars to be used in refunding fifteen thousand dollars (\$15,000) Court House bonds of said county, bearing interest at the rate of four per cent per annum for the sum of fifteen thousand dollars be issued therefor payable as follows:

One bond for one thousand dollars payable July 1st, 1908.

One bond for one thousand dollars payable July 1st, 1909.

One bond for one thousand dollars payable July 1st, 1910.

One bond for one thousand dollars payable July 1st, 1911.

One bond for one thousand dollars payable July 1st, 1912.

One bond for five thousand dollars payable July 1st, 1917.

One bond for five thousand dollars payable July 1st, 1922.

Board adjourned sine die.

# PACIFIC CABLE'S VALUE

New Line's Advantages Told  
by Government Officials.

## A GREAT GAIN TO CIVILIZATION.

Assistant Secretary of State Loomis  
Tells of Its Worth in Commerce  
and How It Will Be of Particularly  
Great Service to the Navy—Trans-  
mission of Messages to Be Cheaper.

Assistant Secretary of State Loomis,  
who has supervision of the consular  
service, is most enthusiastic over the  
advantages that will follow the opening  
of the new Pacific cable, says the  
Philadelphia Press. In discussing the  
improvement he said:

"Every railway line and cable line  
that is built through the undeveloped  
portions of the world is a gain to civil-  
ization because with it commerce and  
trade follow. This is illustrated in the  
villages and towns in the west.  
"This cable will be of great advantage  
to every department of the govern-  
ment, but of particularly great service  
to the navy, enabling the depart-  
ment to convey orders to the officers  
of the ships at points which hitherto  
they have not been able to reach. It  
will be of tremendous advantage in  
time of war. Then a cable line con-  
necting the United States with the  
orient will be of great convenience in  
the consular service. In case we wish  
ed to direct our consular agents to pro-  
ceed to China or Japan we could reach  
them before arrival at their destina-  
tion and change their orders if neces-  
sary."

The operations of a squadron of  
American war vessels in Asiatic wa-  
ters will be a much more simple mat-  
ter with an American cable at the dis-  
posal of the navy department. Rear  
Admiral Henry C. Taylor, chief of the  
bureau of navigation, appreciates the  
value of this new line of communica-  
tion. "One great advantage," he said,  
"is that the line will be under the con-  
trol of the United States, and in time  
of war, or when war is threatened, our  
government at home will be able to re-  
ceive at all times prompt and correct  
accounts of the situation in the Philip-  
pines and in the Asiatic regions."

"Its value is apparent to any one  
who will look at the geography of the  
region. Cables were in vogue before  
for telegraphing, and messages in or-  
dinary times went along tolerably well  
without any considerable delay by most  
of the transatlantic cables, the Euro-  
pean and Asiatic cables out to the Philip-  
pines, but that, of course, gave con-  
siderable trouble by delays and by  
passing through so many hands. I  
have received cablegrams myself in  
Korea, for instance, from this country  
which had become entirely unintelligi-  
ble in the course of transmission."

Few officials of the government have  
spent more money in cable messages  
than Colonel Clarence Edwards, chief  
of the bureau of insular affairs of the  
war department. He felt like throwing  
up his cap when the word came that  
the Pacific cable had been landed on  
northern Luzon. He has to keep in  
daily and almost hourly touch with the  
Philippines, and this new line means  
more to his bureau probably than to  
any other department of the govern-  
ment. Expressing his delight, Colonel  
Edwards said:

"The completion of the commercial  
cable line from San Francisco to Ma-  
nila will mark a new era in the trans-  
mission of messages to the orient. The  
advantage of such a cable is inestima-  
ble when one considers not only the re-  
duction in rate, but that under the  
present system cablegrams have to be  
repeated eighteen times between Wash-  
ington and Manila. Hereafter there  
will be but six relays. Under the pres-  
ent system government cables have to go  
through the hands of operators of  
almost every nationality; but with the  
inauguration of the new service we  
will have all English speaking op-  
erators, thus securing greater accuracy.  
The new cable service will be a great  
saving to the government. The govern-  
ment will now pay 50 cents from San  
Francisco to Manila, plus the domes-  
tic rate, which is a total reduction  
of about one-half."

In directing the operations of the  
treasury department Secretary Shaw  
has to have his fingers on the ends of  
the earth, as it were. Information  
from every quarter of the globe is  
necessary at times, and the quicker it  
can be received the more valuable it  
is. This is especially true of the immi-  
gration bureau in the treasury depart-  
ment, and Commissioner General Sar-  
gent, who has recently extended his  
personal examination of the service as  
far as Honolulu, is impressed with the  
advantage the new Pacific cable will  
be. In discussing that feature of its  
benefits the commissioner said:

"Its value to our service cannot be  
calculated by figures. It puts us in  
daily touch with our officials and is of  
the greatest advantage in the admin-  
istration of the immigration laws in  
connection with the island of Hawaii."  
Some idea of the importance attach-  
ed to the completion of this cable by  
government officials is furnished in the  
above expression. It is regarded at  
Washington as a great national event.

## Wax Bullets For Duel Practice.

The pistol shooting world has been  
stirred by an invention consisting of  
bullets made of a compound of wax  
and tallow which will allow sham  
duels with the pistol to take place in  
the same form as fencing bouts, says  
a Paris cable dispatch to the New York  
Herald. The bullets are sufficiently  
hard to permit good aim and soft  
enough to be harmless. This is said to  
be good practice for would be duelists,  
as it will teach them to show only the  
right side of the body.

# A COWBOY'S ROMANCE.

How He Became Engaged to a W. C.  
T. U. Girl.

In Culbertson, Mont., Miss Edith  
O'Mara, a pretty young woman who is a  
prominent member of the Women's  
Christian Temperance union and a  
church member of that place, recently  
arrested "Red" Cutcheon and John  
Morley, two bad men who came drunk  
into the town and terrorized all the  
male inhabitants with their pistol prac-  
tice, says the Portland Oregonian. After  
landing the desperadoes in jail Miss  
O'Mara immediately fell violently in  
love with Cutcheon and promised to  
marry him. On his part, Cutcheon has  
agreed to stop drinking liquor. The  
whole town is watching the end of this  
queer courtship with unabated interest.

The young woman was walking along  
the street in the evening when the two  
men rode into town and began to shoot  
out lights, whooping like Indians on a  
raid. Miss O'Mara was the only resi-  
dent of the town who did not run for  
shelter. As the men came dashing up  
she accosted them politely, and then  
she suddenly drew a pistol from the  
folds of her dress. The muzzle was  
first pointed at one and then at the other  
with such rapidity that the two des-  
peradoes failed to see any joke in it.

"Drop your revolvers and drop them  
at once!" commanded the girl. The  
two men allowed their revolvers to fall  
to the ground. The weapons were  
picked up by the girl, who then march-  
ed her prisoners to the jail and turned  
them over to the marshal.

Then, like a true daughter of Eve,  
Miss O'Mara began to pity her prison-  
ers, especially Cutcheon, and pity, a  
poet says, is akin to love. She was  
heard to remark that "Red" Cutcheon  
was not such a bad looking fellow, af-  
ter all, when he was sober and washed  
up. She talked long and earnestly  
with him in his cell about his salva-  
tion.

"Why don't you brace up and be a  
man?" she asked.

"Because no good looking young  
woman like you ever asked me," said  
"Bad Man" Cutcheon. He swore he  
loved her and promised that he would  
never touch another drop of liquor if  
she would be his wife. She cried a  
bit and then consented to marry him.  
So when "Red" Cutcheon was ar-  
raigned in court and fined \$25, charged  
with shooting his revolver inside the  
city limits, his fine was paid. After a  
fond temporary parting with his newly  
found sweetheart he went to the ranch,  
where he is employed strangely quiet,  
and the manager was so tickled when  
he heard of the strange adventure that  
he made Cutcheon foreman of the ranch.

## A NEW ILLUMINANT.

Claims For a Liquid Gas Made by a  
Munich Chemist.

The American consul general at Mu-  
nich reports that a well known Ger-  
man chemist, Hermann Blau, has dis-  
covered a new illuminating agent. He  
has found a way to distill off a com-  
pound of methane and hydrogen from  
"oil gas," and, having separated this,  
he liquefies it by a pressure of forty  
atmospheres in a steel retort. The prod-  
uct is very volatile, but the vapor is a  
trifle heavier than air. Compared with  
coal gas, acetylene or alcohol, it is  
cheaper for heating purposes and more  
brilliant. It is said that the new gas  
can be handled with ease. No reference  
is made to the explosive qualities.

On Dec. 24, 1902, a test was had for  
the first time to produce the liquid gas.  
The trial showed how practical and  
very simple the process of preparation  
was. It has since been decided to erect  
an oil gas furnace and to reconstruct  
the rectifying apparatus in accordance  
with the practical observations obtained  
by the experiments of last Decem-  
ber.

A new test has recently been made  
and shows a most marked improve-  
ment and a remarkable productive pow-  
er in every respect. It was also found  
that by the addition of a considerable  
amount of tar, which is in nowise detri-  
mental, a beautiful yellow color was  
given to the gas.

A test tube filled with the liquid gas  
needed only the warmth of the hand  
to cause it to effervesce. It also efferves-  
ced when poured upon a metallic  
plate and on water. In the latter case  
a crust of ice was formed.

## Sure Death to Mosquitoes.

Each day we pick the papers up and read  
of some new way  
To squelch the bad mosquito in his irri-  
tating play.  
They tell us if we burn a lot of sulphur  
in the room  
'Twill send the skeeter scurrying ahead  
to meet his doom.  
But if you do not care to breathe the sul-  
phuretic mist  
You'll find it just as certain if you slap  
him on the wrist.

Also they've found a little worm, a para-  
sitic pest  
That loves to hit the skeeter in the center  
of his vest  
And make him feel a bitter, green cucum-  
ber sort of twinge  
And twist his spinal column till it doubles  
like a hinge.  
If there's no paragon, then the skeeter  
will be missed,  
But he is dead and done for if you slap  
him on the wrist.

'Tis said that giving him a bath in crude  
petroleum  
Will make him feel his vibrant wings and  
make his voice be dumb.  
Or if you spray him carefully with strong  
formaldehyde  
Into the dim hereafter he will most cer-  
tainly glide.  
Some eucalyptus ointment, too, will cause  
him to desert.  
But you are sure to kill him if you slap  
him on the wrist.

The latest theory is that if you will find  
his key—  
The note upon the scale that he regards  
with lively glee.  
The sippy, zwoomy, zizzy note he sings as  
swift he flies—  
And play it for him, when you do the  
bold mosquito die.  
But why prolong the agony? Why finish  
out the list?  
It's safe to bet he's dead if you have  
slapped him on the wrist.

## PACIFIC CABLE'S VALUE

New Line's Advantages Told  
by Government Officials.

A GREAT GAIN TO CIVILIZATION.

Assistant Secretary of State Loomis

Tells of Its Worth in Commerce

and How It Will Be of Particular

Great Service to the Navy—Trans-

mission of Messages to Be Cheaper.

Assistant Secretary of State Loomis,

who has supervision of the consular

service, is most enthusiastic over the

advantages that will follow the open-

ing of the new Pacific cable, says the

Philadelphia Press. In discussing the

improvement he said:

"Every railway line and cable line

that is built through the undeveloped

portions of the world is a gain to civil-

ization because with it commerce and

trade follow. This is illustrated in the

villages and towns in the west.

"This cable will be of great advantage

to every department of the govern-

ment, but of particularly great service

to the navy, enabling the depart-

ment to convey orders to the officers

of the ships at points which hitherto

they have not been able to reach. It

will be of tremendous advantage in

time of war. Then a cable line con-

necting the United States with the

orient will be of great convenience in

the consular service. In case we wish

to direct our consular agents to pro-

ceed to China or Japan we could reach

them before arrival at their destina-

tion and change their orders if neces-

sary."

The operations of a squadron of

American war vessels in Asiatic wa-

ters will be a much more simple mat-

ter with an American cable at the dis-

posal of the navy department. Rear

Admiral Henry C. Taylor, chief of the

bureau of navigation, appreciates the

value of this new line of communica-

tion. "One great advantage," he said,

"is that the line will be under the con-

trol of the United States, and in time

of war, or when war is threatened, our

government at home will be able to

receive at all times prompt and correct

accounts of the situation in the Philip-

pines and in the Asiatic regions.

"Its value is apparent to any one

who will look at the geography of the

region. Cables were in vogue before

for telegraphing, and messages in or-

inary times went along tolerably well

without any considerable delay by most

of the transatlantic cables, the Euro-

pean and Asiatic cables out to the Philip-

pines, but that, of course, gave con-

siderable trouble by delays and by

passing through so many hands. I

have received cablegrams myself in

Korea, for instance, from this country

which had become entirely unintellig-

ible in the course of transmission."

Few officials of the government have

spent more money in cable messages

than Colonel Clarence Edwards, chief

of the bureau of insular affairs of the

war department. He felt like throwing

up his cap when the word came that

the Pacific cable had been landed on

northern Luzon. He has to keep in

daily and almost hourly touch with the

Philippines, and this new line means

more to his bureau probably than to

any other department of the govern-

ment. Expressing his delight, Colonel

## A COWBOY'S ROMANCE.

How He Became Engaged to a W. C.

T. U. Girl.

In Culbertson, Mont., Miss Edith

O'Mara, a pretty young woman who is

a prominent member of the Women's

Christian Temperance union and a

church member of that place, recently

arrested "Red" Cutcheon and John

Morley, two bad men who came drunk

into the town and terrorized all the

male inhabitants with their pistol prac-

tice, says the Portland Oregonian. After

landing the desperadoes in jail Miss

O'Mara immediately fell violently in

love with Cutcheon and promised to

marry him. On his part, Cutcheon has

agreed to stop drinking liquor. The

whole town is watching the end of this

queer courtship with unabated interest.

The young woman was walking along

the street in the evening when the two

men rode into town and began to shoot

out lights, whooping like Indians on a

raid. Miss O'Mara was the only resi-

dent of the town who did not run for

shelter. As the men came dashing up

she accosted them politely, and then

suddenly drew a pistol from the folds

of her dress. The muzzle was first

pointed at one and then at the other

with such rapidity that the two des-

peradoes failed to see any joke in it.

"Drop your revolvers and drop them

at once!" commanded the girl. The

two men allowed their revolvers to fall

to the ground. The weapons were

picked up by the girl, who then march-

ed her prisoners to the jail and turned

them over to the marshal.

Then, like a true daughter of Eve,

Miss O'Mara began to pity her prison-

ers, especially Cutcheon, and pity, a

poet says, is akin to love. She was

heard to remark that "Red" Cutcheon

was not such a bad looking fellow, af-

ter all, when he was sober and washed

up. She talked long and earnestly

with him in his cell about his salva-

tion.

"Why don't you brace up and be a

man?" she asked.

"Because no good lookin' young wo-

man like you ever asked me," said

"Bad Man" Cutcheon. He swore he

loved her and promised that he would

never touch another drop of liquor if

she would be his wife. She cried a

bit and then consented to marry him.

So when "Red" Cutcheon was ar-

raigned in court and fined \$25, charged

with shooting his revolver inside the

city limits, his fine was paid. After a

fond temporary parting with his newly

found sweetheart he went to the ranch,

where he is employed strangely quiet,

and the manager was so tickled when

he heard of the strange adventure that

he made Cutcheon foreman of the

ranch.

A NEW ILLUMINANT.

The American consul general at Mu-

has found a way to distill off a com-

ound of methane and hydrogen from

"oil gas," and, having separated this,

he liquefies it by a pressure of forty

atmospheres in a steel retort. The pro-
